

Nagman Got Admission in Puspatri!

Customer Profile

Johor Skills Development Centre or Pusat Pembangunan Tenaga Industri Johor (PUSPATRI) was established in 1993 by Johor Corporation with the objective to provide technical training and skills upgrading to the industrial workforce in Johor. PUSPATRI is an approved training provider of Ministry of Entrepreneurial and Cooperative Development. PUSPATRI undoubtedly contributes to the efforts by Malaysian government to enhance the retraining of skilled manpower needed by industries. PUSPATRI which is located in Pasir Gudang Industrial Estate offers more than 120 types of courses including Industrial Automation.

Business Situation

As PUSPATRI is in the filed of providing education for skilled instrumentation engineers they are bound to provide excellent practical training, in a sophisticated instrumentation laboratory attached to the faculty.

Task

They were in the process of equipping their laboratory with 'Instrument & Calibration Work Station', (& complete set of sample units under test /calibration) and dedicated software that will record the data of automatic calibration done by their students. Retrieval of calibration data with observation / calibration report of students was another task.

Solution:

Nagman, India passed several rounds of stringent purchase procedures (techno- commercial formalities), established and proved that their **MULTIFUNCTION CALIBRATION WORKSTATION** is the most cost effective & highly efficient system.

Solution Description

- ❖ Nagman's Multifunction Calibration Work Station **System 9600** with dedicated '**CALMAN**' Software
- ❖ Package of over 16 sample UUTs
- ❖ Complete & Hands-on training to PUSPATRI ' faculty members at Nagman's sophisticated calibration facilities in India.
